

Hi All,

Following increasing numbers of cancellations, and in consultation with competitors and stakeholders, including Porsche Cars Australia, the decision has been made to temporarily suspend the Easter event, and all PCSA motorsport activities.

This means the upcoming Easter event at the Bend on 10 and 11th April will not go ahead in 2020.

The good news is we have secured the track to run again at Easter in 2021 and as an entrant for this year's event your entry will also be secured for next year.

Save the date!

Knowing many people, particularly those traveling from interstate, needed to finalise travel, accommodation and transport commitments which were much more significant than the event fee, this brief statement is to provide everyone with maximum notice and prevent a last minute cancellation like occurred with the recent F1 event in Melbourne.

There is a lot of work required and processes to follow to set up these events, and we have needed to keep that process going right up until the decision was made.

More detailed information will follow regarding rescheduling and entry fees. This was a hard decision, however we feel it is the right thing to do given the circumstances affecting individuals and the larger community.

Apologies and thank you to everyone who has supported this event. We look forward to seeing you next year and will be back bigger and better after the current Covid-19 issues have passed.

Thanks and Regards

Darien Herreen - PCSA Motorsport Director and Secretary

Vic Moore - PCSA President
